PHW is a fly fishing program founded in 2005 at Water Reed. Their mission is to assist disabled active duty military personnel and veterans through fly fishing and fly tying education and outings. While initially focused in the DC area, they have expanded and now offer over 70 such programs throughout the U.S. and Canada. This is a type of sport fishing program worth hearing about!

For managers and supervisors, the Office of Diversity and Inclusive Workforce Management has graciously included David's presentation to count towards an **hour of your mandatory diversity training.**

The U.S. Fish and Wildlife Service is committed to providing access to this event for all participants. Please direct all requests for sign language interpreting services, Computer Aided Realtime Translation (CART), or other accommodation needs, to R9beod@fws.gov. If you need alternative formats or services because of a disability or have any questions concerning accommodations, please contact the Disability Program Manger at 703-358-2349 (Voice), via e-mail at Julia_Bumbaca@fws.gov, or TTY 800-877-8339 with your request by close of business April 25, 2011.
